The Education Training Credits program works like a debit card—you purchase as many credits as you need in a single transaction then use those credits within one year for any Symantec Education Services offering, including public classroom training, on-site training (private), and self-paced training. This simple program allows you to purchase as little or as much training as you need to meet your business and education demands.

- Organization-wide redemption—Credits can be used by anyone within the organization.
- Savings—You receive progressive discounts based on volume of training credits purchased.
- Single transaction—By purchasing a block of training credits at once, you minimize the amount of purchase transactions throughout the year.
- Enhanced tracking—Online tracking allows for management of your credit balances and future planning around your training needs.

HOW TO PURCHASE AND REDEEM

Education Credits are available at five price points with progressive discounts. You simply purchase the amount of credits required to cover your organization's training needs. Purchase credits in increments as low as a single credit through as many credits as desired.

Pre-purchase training credits for classroom and self-paced offerings and save between 5 and 15 percent depending on the amount purchased. Training Credits are ideal for organizations or individuals who want to purchase training credits up front and enroll when they identify a training need. Customers can redeem credits for training from Symantec Education Services as their training needs arise.

The more training credits you purchase, the higher the discount. Credits/discounts are as follows:
